

DIPLOMA IN COUNSELLING PSYCHOLOGY

From 30th of June to 27th September, 2021 (90 full Days)

The Bishops, the Major Superiors, Superiors of Religious Communities and Rectors of Seminaries have ample people who need serious help in their emotional issues shown in inappropriate behaviours in their day-to-day life and ministries. These Religious Leaders look for someone who can guide and help them in these members' journey of life. Unfortunately there are very few people who can do this service though they may hold degrees in Psychology or Spirituality. People who have the aptitude and trained sufficiently, in the area of helping others, is a great need in the Church in India today.

The Formators in general are at a loss to help the formees who come with a lot of emotional baggage. The Parishes and Institutions look for people who can be of help.

The Government of India is going to demand all our Educational Institutions to have trained Student Counsellors to be at the service of the students.

Keeping all these in mind the Jesuit Centre at Secunderabad is coming forward **to meet these needs by forming and training the personnel**. It is an excellent course for those in Sabbatical and desire to move into helping ministry in the future. We have chalked out a three-month course of Counselling Psychology, which we are announcing to you. The course is not meant for those who seek healing but a lot of healing will take place as the course is experiential. **This course prepares resource persons.**

In this course we give some basic knowledge in Psychology focusing on the inner emotional dynamics of human persons. Then we move into dealing with the emotional issues of the participants so that the course is to help others by experiencing being helped themselves. Then we lead the participants into a systematic inner-formation and skills-learning step by step.

You are welcome to send your members to benefit by this course and help others.
